

The Company

Established in January 2003 for the purpose of helping companies reduce operating expenditures related to utility costs through innovative energy conservation that guarantees specific fiscal results.

Motto: We place clients in a better financial position than we find them.

Mission: To raise clients' profitability while lowering operating expenditures in a sustainable manner that enables companies to redirect more earned profits to business goals

Vision: To become the premier provider of supply-side energy services and demand-side energy conservation solutions by growing the client base to 1000+ satisfied commercial customers.

GU has two (2) core competencies:

- Supply-side Services
- Demand-side Solutions

Located in Southeastern Michigan, Georgetown Utilities provide products and services throughout the region and nationwide

Georgetown Utilities is a limited liability corporation with 7 full-time employees and five part-time employees.

Our assets are our core competencies and we have exclusive access to patented and proprietary energy efficiency and conservation solutions. We effectively use contractor and consultant resources to augment our total resource capabilities.
